## Data Structures HW 01

### Monday Group 12

#### Instructions:

When entering the file name, the full file path must be entered as well.

Ex: C:\\Users\\user\\Downloads\\PeterPan.txt

#### Contributions:

Each member contributed approximately 25% to the assignment. We worked together on the code and rotate who does the written portion of each assignment, so all contributions are equal. It's hard to say exactly what each person did since we discussed what we were going to do together and then all coded together, but the contributions were equal.
